Simpled Smart Cylinder

Discover our Range of Products:
Simpled is a London-based tech company rolling out innovative IoT devices to elevate the smart home experience. Control your home with a range of smart security devices from Simpled. Whether it's a Smart Door Lock, a Camera Doorbell, Simpled put you in control of your home security.

Thank you for choosing the Simpled Slim Door Lock. Please

1. Read this manual completely before using the Simpled Slim Door Lock.
2. Alkaline Batteries are recommended.
3. Replace the battery when you notice the low-battery alarm.
4. Keep the Emergency keys outside the house.

Simpled

Product Overview

Adjust the Cylinder to perfectly match your door and escutcheon.

80 mm Lock core

60 mm Lock core

Simpled.

In this example, the door thickness is 60mm.

The escutcheon thickness is 10mm each.

So we need to increase the length by 10mm for each side.

For the outer part:

1. We unscrew the hex on the cylinder body

2. then secure it on the 2nd hole, extending the outer part to 10mm.

	1	Outdoor length	2	Intdoor length
60 mm ~ 85mm	30 mm	1	30 mm	5
	35 mm	2	35 mm	6
	40 mm	3	40 mm	7
	45 mm	/	45 mm	8
80 mm ~ 110 mm	40 mm	1	40 mm	5
	45 mm	2	45 mm	6
	50 mm	3	50 mm	7
	55 mm	4	55 mm	8

For the inner part:

It's easier. After mounting the cylinder on the door, we can screw the inner knob on the proper hole.

In this case, it will be the number 6 that gives us the 10mm that we want.
Simpled.

What's Included?

Specifications

|	
Materials	Aluminum alloy
Lock Weight	1 KG
Unlocking Way	Bluetooth Fingerprint Password Proxy Fob / Stickers Emergency Key Alexa (Bridge needed) Google Home (Bridge needed)
Colour	Silver - Black

Operation

3. Activate the lock's Bluetooth by touching the Lock's keypad
4. Tap on "+ Add Lock" and select your lock type. Press on "All Locks" if you are not sure.
5. In the "Nearby Locks" list, select the appeared lock. Please make sure you are near the lock in the Bluetooth range.
6. Rename the Lock "Sweet Home, Spain Villa, London Office, …"
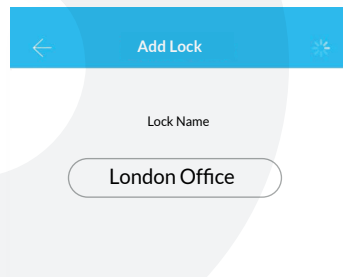

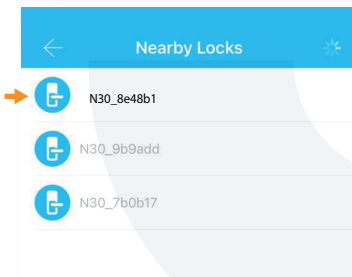

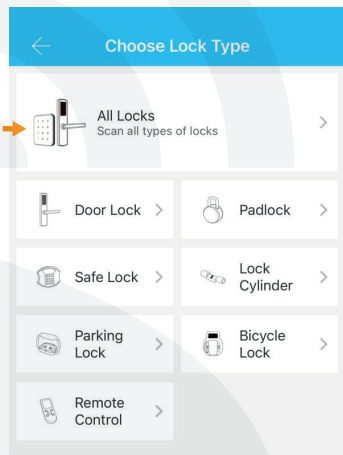

Notice: Generally, the passcode for a lock that has not yet been added is 123456

Bluetooth Unlock

Try to open the lock by tapping on the "Lock Icon". Please ensure there is no problem with Bluetooth communication, and the phone is within the 5-meter range of the Simpled Slim Smart Lock.

Simpled.

Add Fingerprints

For adding a new fingerprint,

1. Select Fingerprint from the lock screen in the app
2. Tap on the three dots
3. Select Add Fingerprint
4. Choose a name for later reference " It helps you to recognise the fingerprint in the unlocking reports".
5. Choose whether you want to create limited-time or permanent access.
6. Then start and press your fingerprint 4 times on the fingerprint sensor
7. You should see it is done successfully.
8. Test the fingerprint.
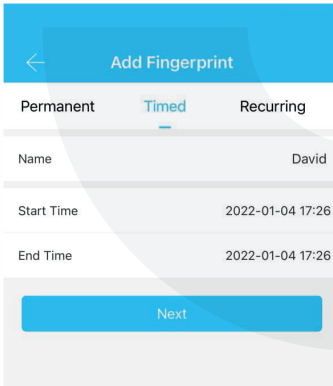

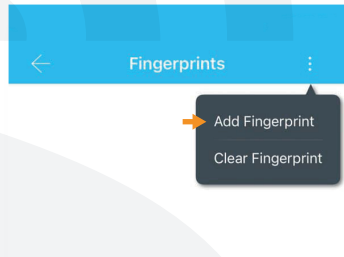

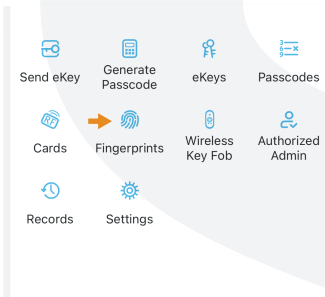

Add Passcodes

You can create different passcodes types to open the Simpled slim lock: permanent, time-limited, OTP(one-time passcode), cycle or custom.
You can easily share the passcode with other users via SMS, Email, WhatsApp.

You can create, limit, share and delete a passcode without a bridge using the app when you are near the lock.
But for example, If you want to eliminate a passcode remotely, you need a Bridge. You can learn more about Bridge features in its section.

Gain access with Passcodes:
1. Touch the keypad with your palm or back of your fingers to wake up the lock.
2. Enter the generated passcode. (Before setting new passcodes, the default code is 123456#)
3. Press #.
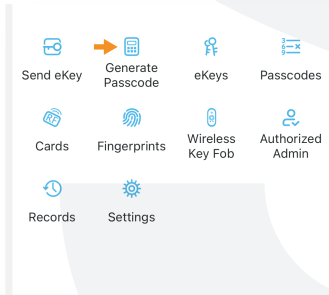

Passcode Management

Click on "Passcodes". In this section, the Admin user can
1. Change, delete or reset passcodes.
2. Review the unlock records of passcodes.

Create and Send e-Keys

By selecting the "Send eKey" as shown in the figure, you can create and share an electronic key with your friends, family, maid, dog walker or your AirBnB guests. For using the eKey, they need to download and sign up for a new account. This will also help you find out about the time they opened the lock. E-Keys are also available in different types: Permanent, Time-Limited, One-time and recurring.
You can authorise a user as Admin in the Authorised Admin section

1. reset or delete eKeys.
2. review the access records.

Create Admin

With this feature, you can assign a
new timed/ permanent admin to
have the same level of access to
the lock.
For example, your receptionist or
even your guest will be able to add
new users and even register their
own fingerprint on the smart lock,
up to the time their users are valid.

FAQ

1. How can I read the operation records?

1. Open the app
2. Select your lock 3. Select "Records"

---

2. I cannot change the passcode. It says Operation failed.

First, Ensure your smartphone is within 2 meters of the cylinder when setting the passcode. If it is, turn off your smartphone's Bluetooth for 10 seconds and turn it on again.

---

3. After installation, I touched the keypad, but there was no response. What is the reason?

A) Check if the battery is placed correctly and if it has enough power. New Alkaline Batteries are recommended.
B) Check if the battery cover is fitted properly.

---

4. I had a problem registering my fingerprint.

Check if your fingerprints are clean without any dirt or wear.
Clean the sensor with a soft cloth making sure there's no oil, stains, etc.
---

5. What happens if you enter the wrong password into the lock too many times?

After five failed attempts to enter your passcode, your lock will be disabled for 5 minutes. You can try other unlocking methods.
